Start April Right With Int'l Children's Book Day Festivities

It's April—FINALLY!—and that means it's time for International Children's Book Day, observed since 1967 on or around the birthday of iconic Danish storyteller Hans Christian Andersen (April 2, 1805-Aug. 4, 1875), and sponsored by the International Board on Books for Young People (IBBY).

Monday's annual observance kicked off a month of events aimed at young readers, including **School Library Month**, National DEAR Day/Teen Literature Day on April 12, and ALA Library Week from April 8-14. The theme of this year's IBBY observance, penned by Latvian author Inese Zandere, is "**The Small Is Big in a Book**," and references the universality of books for young children and their important function in creating order and balance in kids' worlds.

Celebrate the vital role of children's literature with **hot titles** and books from **popular authors**!
